

MICHELA

Linee talmente semplici e regolari da risultare istintive, danno vita alle forme di questa lampada dall'aspetto conosciuto ma al contempo perfettamente in grado di creare un legame perpetuo tra luce e superfici. Michela è un classico senza tempo.

Michela is instinctive, made up of such simple and regular lines, creating the shapes of this lamp defined by its easily recognisable appearance. At the same time, it is perfectly capable of creating an eternal bond between light and the surfaces on which it shines. Michela is a timeless classic.
